

## 200L Skid Mounted Water Bowser

**£446.25**

Reference: EDX570

200L Skid Mounted Water Bowser Our 200 litre Demount Water Bowser is manufactured from UV stabilised, food grade polyethylene giving a robust storage tank specifically designed for the carriage of potable and non-potable water. An optional pump mounting plate can be installed on the unit enabling the simple fitment of various pump options and other add ons. The Demount Water Bowsers provide a quick and easy way to get fresh water to the location of your choice. The tanks have a large diameter ventilated lid at the top of the unit to enable easy filling - emptying is via a 1.5" hose with a ¼ turn tap. Fill the tank from the supply - empty the tank via the pipe into your troughs or wherever it's needed. Features WRAS approved, black tank only, supplied with a Bye-law 30 kit (Bye-law 60 in Scotland) As non-potable available in green or translucent natural Supplied as standard with a 1.5" Outlet (other options available) Powder coated double axle frame 100% rust proof 5m x 1.5" PVC hose (non-potable) UK manufactured Supplied direct from stock for fast delivery Guaranteed for 10 years (potable) and 2 years (non-potable) Dimensions Overall (L x W x H): 1100 x 650 x 650mm Lid: 255mm Popular uses include Potable water for public events and emergency/disaster situations (black tank only) Bowsers for livestock Water bowser hire for clean water supply Used in construction and civil engineering environments where mains supply is not available Portable water use for catering vans, welfare units and off mains cabins Milk Tanks and Milk Bowsers ✓ Safe with herbicides ✓ Safe with fungicides ✓ Safe with pesticides Please select the accessories tab above to select a boom if required
