£1,567.00

Reference: ED2030

300L Site Tow Trailer Mounted Water Bowser - 12V - 19L/m - Single Axle Our 300 litre Towable Plant Watering Bowser is manufactured from UV stabilised, rotationally moulded, medium density polyethylene giving a robust tank specifically designed for the carriage non-potable water. The towable bowser is a complete all-in-one water delivery system. It has been designed for the compliant, safe transportation and remote supply of water. The 300 litre (65 gallon) Towable Water Bowser has been designed for the compliant, safe transportation and remote supply of water. The tank is constructed from UV stabilised, food grade polyethylene giving a robust storage tank specifically designed for the purpose. This bowser can be modified with options of various pumps and other add ons including engine driven pressure washers, dust suppression units and plant waterers. This Bowser Unit provides a quick and easy way to get fresh water to the location of your choice. The tanks have a large diameter ventilated lid at the top of the unit to enable easy filling - emptying is via a 1.5" hose with a ¼ turn tap. Fill the tank from the supply - empty the tank via the pipe into your troughs or wherever it's needed.
